November 12, 2014

Dear Porter Ranch Community School Families:

When PRCS first opened in 2012, the Los Angeles Unified School District set the school boundaries with two option areas. This allowed for as many Porter Ranch families as possible to enroll in the new school. The area around the school has continued to grow and the middle school is currently at capacity.

Newly enrolling students in Grades 6-8 who live in the brown area (Porter Ranch Estates) will no longer have PRCS as an option. Frost Middle School will be the resident school for the 2015-2016 school year. However, students in this area who are currently enrolled at PRCS will continue through culmination. If space permits, sibling permits may be available to incoming middle school students in this area.

Students who live in the area designated as K-5 Option to Castlebay Lane or Porter Ranch and Grades 6-8 Option to Frost MS or Porter Ranch (Promenade and Heights) will continue to have this option for the 2015-2016 school year. These areas are optional and as the community continues to grow, they will need to be closed in the future.

Please check our website for an announcement regarding a community meeting to address questions and concerns. Additionally, you may call Educational Service Center North Operations at 818-654-3600.

Sincerely,

Mary Melvin  
Principal
