

# COMMUNITY FOCUS GROUP

## TOPIC: CHANGES IN CALIFORNIA'S CHARTER SCHOOL LAW

You are invited to view the on-line video presentation related to Assembly Bill (AB) 1505, which updated the law for how charter schools in California are authorized. Participants will gain an understanding of some of the key changes in law. One addition in the law is the consideration of the community and fiscal impact a new charter school would have on the community where it proposes to locate.

After viewing the video, participants will, also, share their perspectives by completing the on-line survey to help inform District policy, which will be updated to align with the new legislation.

Let us know what you think in two easy steps:
